

ZP-40 SLIM/2

The **portable sound systems ZP-40 SLIM/2** convince users with their **powerful voice and music transmission**, their **attractive appearance** and **high-end internal, electronic and mechanical design**. The ZP-SLIM series is **perfect for large processions and pilgrimages** (operating time of up to 6 hours) but also ideal as a **stationary sound system** i.e. as a background music player in the church.

The system includes **1 x portable column speaker, 2 x hand-held wireless microphones and 2 x wireless receivers**.

The **built-in MP3 player module with BT receiver** (including IR remote control) has inputs for USB sticks and a SD memory card and will optimally accompany you during operation. The integrated BT receiver **supports all popular Bluetooth-enabled devices** and allows you to **wirelessly transfer music or pre-made texts** from your mobile phone, PC or MP3 player to the procession system and play it.

A big advantage of the ZP-SLIM procession system is its **very light, user-friendly operation, the large amplifier power (40W) and its light weight (4.9 kg)**. All **connections are ergonomically designed**, very clearly arranged and easy to understand.

The upper **loudspeakers can be rotated up to 180 °** and enable **front and rear sound**. The systems are thus ideal for elongated processions.

Material: Aluminum powder coated.

Length: 140 cm
